Torrin,

Thanks. Working on second try, no structure. Hour for first set of tiles. Should have everything in around 11 am CDT.

I don't see anything either – whether logged in or not. Don't have a good explanation for why not, but maybe at this point keeping things in the incoming folder and not subfolders might be safest.

Any reason I don't see Bob's directory?

Hi Bob,

I am not seeing the folder you posted. Can you double check the file path on newftp.epa.gov? Also, I believe Joe Schaefer is tagging in for Eric Delgado, so any emails should now include him till we are told otherwise.

Thanks,

Subject: Houston Geoeye Imagery Uploaded to FTP

I just completed the upload of the Geoeye Imagery of the Houston area to the EPA FTP. Let me know if there are other requirements for this type of imagery, etc.

Path: /RTPGIS/Incoming/Harvey_Response/20170831/

Also, there are 132 files with the zipped tile shapes for each set. Sorry, but this is about the only way I could download and upload the files. Torrin and Tim will need to know if you can't access or see the folder.

Thanks!

Robert Kirkland
